

Anzio Ironworks 20-50 Extended Range Sniper Rifle

Anzio 20-50 ERSR

- Greater penetration
- 5000 meters effective fire
- Greater energy & velocity than a 50 cal.
- Comparable weight, size and recoil to the M82, but delivers greater range

"Most Powerful 50 cal rifle"

50 BMG
20-50 Anzio
20mm Vulcan

Operational Capabilities

- A much flatter projectile
- A higher ballistic coefficient
- Rapidly deployable & effective in adverse weather conditions.
- Delivers a 1100 grain projectile at 4600 fps of supersonic flight.
- Match grade accuracy for either anti-personnel, or hardened target objectives.
- The bolt action Anzio 20-50 weighs only 39lbs, just 3lbs heavier than a M82 50cal.
- Delivers greater range, kinetic energy and destructive capability than "any" 50 cal.
- Designed as a single shot or magazine bolt action
- A semi-auto version is under development, at only 7 pounds heavier.

20mm Takedown

Take Down Competition 50 BMG Rifle

Ease and reliable operations in cold weather conditions
